

Music

Students should listen to a musical selection of their choice, for a time period of about 3 minutes. A reminder that when we listen, we close our eyes, rest our bodies and turn out the lights. We try to put pictures in our heads of what we are hearing.

After listening to your musical choice, please draw a picture of what the music made you think of. Please have an adult write the title of the music on the back of your paper.

We will share and discuss our pictures in class.
