

BHRSD Screening Tool -- Please conduct this screening every morning before school:

1. If ALL of the answers are NO, the child or staff may come to school
2. If ANY of the answers are YES, the child or staff will not be allowed in school.

If a student, staff member, or family member is ill with COVID symptoms, all members of the household should remain home from school (students and staff) until the ill family member can be evaluated by a doctor. If the doctor cannot positively attribute the symptoms to something non-COVID, then a negative test result or a 14-day quarantine will be needed before returning to school.

In some cases a second negative test result may be required (for example, symptoms are worsening despite a negative test).

Family members who are not ill but remaining home due to these circumstances will continue to work and attend school remotely.

3. If a child or staff shows symptoms during the school day, they will be sent home and must obtain a COVID test or quarantine for 14 days as well as contact their health care provider for guidance.

In the past 24 hours, have you or any household members had any of the following symptoms?	YES	NO
A temperature of 100 degrees or above?		
Chills?		
Cough?		
Sore Throat?		
Difficulty Breathing or Shortness of Breath
